Ideation Phase
Customer Journey Map

Date	15/10/2026
Team ID	
Project Name	Metro Ticket Booking System using ServiceNow
Maximum Marks	4 Marks

Scenario: Browsing, booking, using and re-booking a metro ticket digitally with the ServiceNow-based Metro Ticket Booking System.

Based on the Customer Journey Map example (Guided city tours). Stages: Entice, Enter, Engage, Exit and Extend.

	ENTICE **How does someone become aware of this process?**	**ENTER** **What do people experience as they begin the process?**	**ENGAGE** **In the core moments, what happens?**	**EXIT** **What do people experience as the process finishes?**	**EXTEND** **What happens after the experience is over?**
Steps	• Sees a poster, app banner or hears from friends about digital metro tickets • Opens the ticket booking portal	• Logs in to the portal • Opens the 'Book Metro Ticket' catalog item	• Selects source and destination stations • Chooses date and number of passengers • Reviews fare and submits request	• Receives the digital ticket with QR code • Gets confirmation email	• Shows the QR code at the gate • Views booking history • Gives feedback or books again
Interactions	• Poster / social media • Friends and colleagues • Service Portal link	• Service Portal or Now Mobile app • Login page	• Service Catalog form • Flow Designer automation (background)	• Ticket record with QR code • Notification email	• Gate QR scanner • Email inbox and My Tickets page
Goals & motivations	Help me avoid queues and save time	Help me get into the booking page quickly	Help me pick the right stations and know the exact fare	Help me feel sure that my ticket is confirmed	Help me enter the station smoothly and travel again easily
Positive moments	Idea of booking without standing in a queue sounds exciting	Simple catalog form that is easy to find	Fare is calculated and shown automatically; no need to ask anyone	Instant QR ticket and email confirmation give peace of mind	Quick entry at the gate; can re-book the same trip in a few clicks
Negative moments	Unsure whether a digital ticket will be accepted at the gate	Forgetting login details; slow network	Choosing a wrong station by mistake; worry about wrong fare	Email delayed or lost in spam folder	Phone battery or network problem while scanning QR
Areas of opportunity	Add awareness banners and QR posters at stations	Offer single sign-on and a simple mobile-friendly form	Show station search, fare preview and confirmation before	Send notification instantly and keep ticket in 'My Tickets' too	Allow offline QR download, reminders, history and favourite

	ENTICE **How does someone become aware of this process?**	**ENTER** **What do people experience as they begin the process?**	**ENGAGE** **In the core moments, what happens?**	**EXIT** **What do people experience as the process finishes?**	**EXTEND** **What happens after the experience is over?**
