Project Design Phase
Problem - Solution Fit Template

Date	15/10/2026
Team ID	
Project Name	Metro Ticket Booking System using ServiceNow
Maximum Marks	2 Marks

Problem - Solution Fit Template:

The Problem-Solution Fit simply means that you have found a problem with your customer and that the solution you have realized for it actually solves the customer's problem. It helps entrepreneurs, marketers and corporate innovators identify behavioral patterns and recognize what would work and why.

Purpose:

- Solve complex problems in a way that fits the state of your customers.
- Succeed faster and increase your solution adoption by tapping into existing mediums and channels of behavior.
- Sharpen your communication and marketing strategy with the right triggers and messaging.
- Increase touch-points with your company by finding the right problem-behavior fit and building trust by solving frequent annoyances, or urgent or costly problems.
- Understand the existing situation in order to improve it for your target group.

Template (filled for the Metro Ticket Booking System):

1. CUSTOMER SEGMENT(S) - CS Daily metro commuters (students and working professionals) Occasional travellers and tourists Senior citizens and differently-abled passengers Metro administrators and gate staff	6. CUSTOMER CONSTRAINTS - CC Limited time during peak hours No cash or change at hand Requires a smartphone and internet connection May be unfamiliar with digital booking	5. AVAILABLE SOLUTIONS - AS Paper tokens and counter tickets: long queues, cash only Smart cards: need recharge, card can be lost Third-party apps: not always connected to station operations
2. JOBS-TO-BE-DONE / PROBLEMS - J&P Buy a ticket quickly without standing in a queue Know the exact fare in advance Carry a ticket that cannot be lost Admin: manage fares and ticket records accurately	9. PROBLEM ROOT CAUSE - RC Ticketing is manual and counter-based Fare calculation is not automated No single digital workflow from booking to ticket and notification	7. BEHAVIOUR - BE Reaches the station early to buy a ticket Asks staff about the fare Uses phone apps for most daily tasks Checks email for confirmations
3. TRIGGERS - TR Seeing others enter with QR tickets Peak-hour crowding and delays Announcements or posters about digital tickets 4. EMOTIONS: BEFORE / AFTER - EM Before: stressed, rushed, uncertain After: relaxed, confident, in control	10. YOUR SOLUTION - SL A ServiceNow-based metro ticket booking system. The passenger selects stations and travel details in a Service Catalog item, the fare is calculated automatically, Flow Designer creates the ticket with a QR code, and Notifications send it by email instantly.	8. CHANNELS of BEHAVIOUR - CH 8.1 ONLINE Books through the web portal or mobile app Receives email and views My Tickets 8.2 OFFLINE Shows the QR code at the gate Asks station staff or customer care for help
